

PLANT EASILY CREATE, MANAGE, AND SHARE PLANT RECORDS.

MAIN DESCRIPTION:

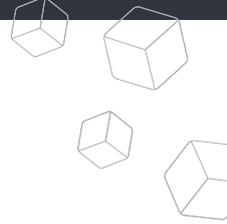

Ensuring your plant and assets are certified, inspections completed and maintenance schedules are up to date can be incredibly tedious and time consuming. Effective's intelligent Plant module allows your maintenance certification to be stored and tracked in one place, allowing you to review

information on any piece plant or equipment in an instant. Our software simply allows your staff to quickly create and manage records, complete inspections, assign actions and schedule routine checks.

KEY FEATURES:

- > Simply track certification and testing for all company assets.
- > Create and track actions against each record.
- > Store all testing certificates centrally with your asset records.
- > Delegate control and ownership of assets.
- > Integrate with the Audit, Incident and Risk modules and the Effective mobile application.
- > Simple visual asset register with traffic light indicators.
- > Attach relevant documentation and certificates to plant records.
- > Create multiple components and reoccurring inspections for any one asset.

BENEFITS:

ACCESSIBILITY

All your statutory & maintenance certification can be kept and tracked in one place. With centralised tracking, you can review all information on a specific piece of plant or equipment instantly.

INTEGRATION

Efficient integration with our audit, incident and risk modules along with our mobile application will allow you to easily tag your plant to relevant incidents, schedule checklists through our audit module and utilising our risk module to attach risk assessments. This is proven to reduce time and build an effective plant profile.

FLEXIBILITY

Completely user configurable, our team will work with you to ensure the system is set up to best match your process and workflow, while ensuring you have the ability as administrators to edit and update any of the configurable settings.
