RISK
## EASILY CREATE, SHARE AND MANAGE RISK ASSESSMENTS.

MAIN DESCRIPTION:

Identifying potential risks and establishing risk reduction plans are essential tasks in health and safety management. The Risk module was created to ensure full control of the risk assessment lifecycle. Our software allows your staff to create, share and manage risk assessment tasks, data and reports. The module automatically shares risk assessment tasks and reports with staff and management to give you all the information you need at your fingertips.

KEY FEATURES:

> Create assessments from scratch or make use of templates and shared risk assessments.

> Identify current and future control measures.

> Assign and track actions to employees.

> Configure risk rating scores and definitions for reports.

> Add images and attachments to visual risk assessments for easier understanding and education.

> Track risk training across your organisation using a simple matrix.

> Unlimited access points for your employees to create risk assessments and submit for approval.

BENEFITS:

EFFICIENCY

Streamlining the risk assessment process and automating your action plans reduces your staff time spent on low value activities and room for potential human error. You can adapt your risk rating calculation methods to your needs, create a range of templates and assessments to share with your workforce and integrate with other modules to provide additional support.

FLEXIBILITY

Completely user configurable, our team will work with you at implementation to ensure the system is set up to best match your process and workflow, while ensuring you have the ability as administrators to edit and update any of the configurable settings. This means a change in process does not mean you need start again with a new development project.

REPORTING

Understanding your organisations risk assessment statistics and KPI's gives you the power to identify potential risk hotspots, guarantee control measures are implemented and ensure a safe working environment for your employees. Effective allows you to move away from reactive reporting with instant data and statistics providing the tools to proactively change behaviour.

RISK

COMPREHENSIVE MODULE OFFERING

Risk is just one of 19 product modules that are available. Whatever your industry sector, whatever your challenge, Effective's comprehensive range of product modules is sure to provide you with the tools to streamline your entire health and safety procedures.
