TRAINING
THE INTELLIGENT WAY TO STREAMLINE TRAINING MANAGEMENT.
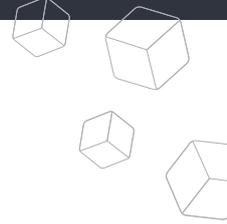

MAIN DESCRIPTION:

We understand keeping on top of your organisation's training activity is time consuming and often hard work. Our Training modules smart automation cuts back on administration time and provides users with an easy to use training management matrix. The matrix allows you to instantly view, schedule and edit your training courses across your organisation. In addition, the module allows you to manage employee certifications, notify participants of upcoming training, track employee course completions and obtain instant reports and KPI's.

KEY FEATURES:

> Simple visual traffic light matrix to monitor training requirements and status.

> Manage and schedule all employee training from one central location.

> Automatically create course sign-in sheets and notify participants and key administrators.

> Store and manage all certificates and relevant documentation against employee records/ training courses.

> Fully user configurable allowing you to create your own courses, groups, and set notifications.

> Integrate with third party online Learning Management Systems (LMS) for improved reporting.

TRAINING

BENEFITS:

INTEGRATION

We're an integrated solution where information can freely flow from module to module without duplicating work. Your users training records can be easily pulled directly into investigations and further integrations with our Risk and Method Statement modules.

FLEXIBILITY

Completely user configurable, our team will work with you at implementation to ensure the system is set up to best match your process and workflow, while ensuring you have the ability as administrators to edit and update any of the configurable settings. This means a change in process does not mean you need start again with a new development project.

REPORTING

Understanding your organisations training statistics and KPI's gives you the power to ensure your employees are trained correctly, reducing lost time and ensuring a safe and secure working environment. Effective allows you to move away from reactive reporting with instant data and statistics providing the tools to proactively change behaviour.
