

AUDIT

CUT THE PAPERWORK - INCREASE ACCURACY AND SAVE TIME.

MAIN DESCRIPTION:

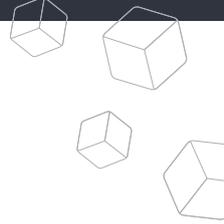

Safety inspections, monthly audits, quality checks, maintenance inspections, engineering surveys and facilities reports – the list is endless. No matter what the purpose, the process requires a lot of administration time to get usable data out of the inspection process. The Audit module was created to streamline your audit reporting process so whether

you're online or offline, you can send data to one centralised location. Our software allows your staff to easily create and update templates, schedule, complete and approve audits assigned to employees, track and manage actions and obtain instant reports and KPI's to proactively improve your organisations safety culture.

KEY FEATURES:

- > Fully configurable audit and inspection templates.
- > Multiple question types including text, drop down lists, multiple choice and numeric.
- > Track GPS and include map data on reports.
- > Take photos and add directly to the report, scan barcodes and capture signatures on your mobile device.
- > Create schedules or complete audits ad-hoc.
- > Complete reports on the move with all data syncing back to the central system instantly for metrics, reports and analysis.
- > Raise and track actions against each audit.
- > No restriction on the number of users to complete audits and actions online.

BENEFITS:

AUDIT

ACCESSIBILITY

Utilising our mobile application empowers your employees to access and control your audit reporting process on the move, saving time, improving efficiency and eliminating duplication. The applications intuitive functionality includes features such as GPS tracking when completing inspections, image uploading, bar-code scanning and physical signature capture.

FLEXIBILITY

Fully user configurable, you can create all the templates you need in our easy to use template editor. Schedule reports to specific users or make them available for anyone to use directly from their own device. Our team will work with you to ensure the system is set up to best match your processes while ensuring you have the ability to edit and update any of the configurable settings.

EFFICIENCY

Streamlining your audit reporting process allows you to eliminate paper and immediately send completed inspections to one centralised location. Therefore no lost papers, no duplication and less time wasted on low value activities.
