METHOD STATEMENT
GENERATE ALL THE DATA YOU NEED TO CREATE YOUR METHOD STATEMENT IN AN INSTANT.
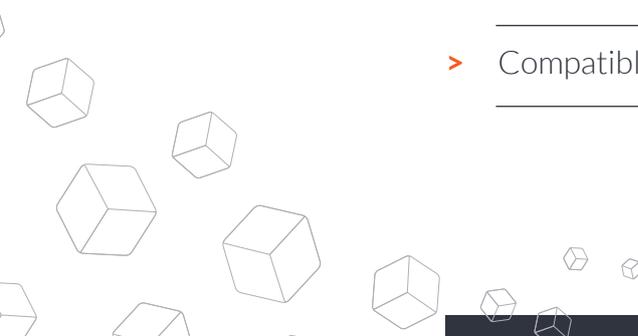

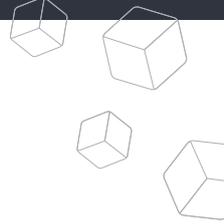

MAIN DESCRIPTION:

Method Statements are being requested more frequently by organisations of all sizes and from all industries. The preparation of a Method Statement may seem like a daunting task, but with Effective all the hard work is done for you and allows your organisation to operate to the highest safety and quality standards. Our Method Statement module enables you to easily create method statements, collate information seamlessly from other modules and even link to audits to assess that the methodology is being followed on.

KEY FEATURES:

> Pull in risk assessments, training, chemicals, plant, PPE, and include employees to easily create your method statements.

> Ability to add project specific documents.

> Ensure onsite activities match up with the created documents with onsite reviews.

> Ability to add and assign actions by project or task.

> Create new revisions and clones at the click of a button.

> Eliminates duplication of work.

> Compatible on mobile devices.

METHOD STATEMENT

BENEFITS:

INTEGRATION

This module seamlessly integrates with Effective modules so you can instantly gain access to information when you need it. With the click of a button you can pull in your PPE records, select the relevant risk assessment, plant involved, relevant chemicals, add team members working on the job and include their training records. You also have the option to select from audit templates with predefined methodologies.

ACCESSIBILITY

You can choose view and access all the Method Statements across the entire organisation or from one specific location. Method Statements will be separated into draft, live or archived folder to help you easily find and group your Method Statements. All Method Statements and associated information is stored in the system, never deleted or removed.

SPEED

At the click of a button you can see all live Method Statements within your Site. Grant access to specific users to control their location or departments method statements. Our system gives you the option to segregate method statements and give users the option to only see what's relevant to them at the click of a button. Sharing and copying Method Statements is also built in to allow users to recreate or share their work.

COMPREHENSIVE MODULE OFFERING

Method Statement is just one of 19 product modules that are available. Whatever your industry sector, whatever your challenge, Effective's comprehensive range of product modules is sure to provide you with the tools to streamline your entire health and safety procedures.
